

AEROCOMP

This department is participating in the AeroComp national service evaluation looking at:

- Airway complications during the COVID-19 pandemic
- Any association between airway complications and aerosol precautions

ALL ADULT PATIENTS RECEIVING A GENERAL ANAESTHETIC ARE INCLUDED

(exceptions include obstetric cases, those where anaesthetic care starts in ICU/ED/Wards and those with an airway device already in site – please see the project team for more details)

The study will run from Monday _____ at 07:30hrs until Friday _____ at 07:29hrs

Please complete one case record form (CRF) per patient you anaesthetise (in/out of hours, elective/emergency all included)
